Art Unit: 1745

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-38 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The written specification recites a converter 12A” as seen in Figure 4 however, the claims set forth a power conditioner. Clarification is required as to which term is proper and where support for the same is found.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 26-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terms “internal auxillary load” and “power conditioner” found in claim 26 do not find proper antecedent basis. Claims 27-38, dependent on claim 26, fall therewith.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1, 4, 13, 14, 17 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by either Werth et al.-US 4,931,947 (Werth) or Fekete, deceased-US 4,962,462 (Fekete).

See column 4, line 3-column 5, line 62 of Werth along with column 7, lines 22-47 and Figures 1-2. The relay 18' in Werth comprises the claimed switch.

Reference is made to column 4, line 5 through column 5, line 5 of Fekete and to column 7, lines 26-50 and Figures 1-2. The relay 18' in Fekete is the claimed switch.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 703-308-1795. The examiner can normally be reached on Monday-Thursday from 6:15-3:45.
